The Company

Canlin Energy Corporation is a privately held, long reserve life, natural gas weighted producer in the Western Canadian Sedimentary Basin. Our E&P business produces around 37,000 boe per day from predominantly operated wells, infrastructure, and facilities. Canlin's key priorities are running a safe and sustainable business, focusing our portfolio, improving productivity, generating value from our midstream assets, and investing for growth and value.

Please visit us at www.canlinenergy.com to learn more about our operations.

Applications for this position can be sent to Canada.recruitment@canlinenergy.com.

Canlin Energy would like to thank all applicants for their interest in joining our team; however only the candidates selected for interviews will be contacted.
